TEMPE

TEMPE MAN ON
AN OVERLAND TRIP

Now on His Way Across the Conti-
nent by Auto.

The Los Angeles Examiner of the 10th gives the details of an automobile tour across the continent in which R. J. Schweppe of this place will participate.

In one car will be William M. Garland of William M. Garland & Co., Harry Gray, a capitalist of Pasadena; Robert J. Rogers, vice president of the National Bank of California; R. J. Schweppe, a wealthy cattleman of Phoenix, and a chauffeur, says the Examiner.

The Examiner goes on to say that the machine used on the run is owned by William M. Garland and is a six cylinder 44 horsepower Pierce Arrow of the 1911 model. The destination is Moosehead Lake in Maine, and it is presumed the party is now on the road, having left Los Angeles Sunday morning. Mr. Schweppe will spend the rest of the summer in the east, returning west in the fall.

"We expect to get all the fun out of this trip that any party can be expected to get out of an outing," said Mr. Garland yesterday. In an interview with the Examiner.

"We expect to be thirty days on the road at the outside. I have conferred with men who have made the transcontinental trip and selected the best of their routes. I am going to my old home at Moosehead Lake, Maine. It is a glorious country there, and I expect to have a great time. My wife and children will make the trip by train, and I will join them there at the end of the journey, for my summer's vacation.

"The route will cover about 4800 miles. I have wired the agents of the Pierce Arrow company along the route and in the big cities, pilot cars will be sent out to meet us and take us through. Such will be the case at Salt Lake, where we will be piloted to Denver. We are going well equipped for any emergency.

"Aside from the feature of the outing, I expect to locate if possible the most feasible route for a transcontinental automobile road. There is no reason why such a magnificent high-

should not exist. It would be a grand enterprise and it would be a trip that every ambitious automobilist both east and west would be planning for his vacation. In that way the people would become better acquainted with the country.

"It would bring the east and the west together upon a common ground. It would link them together much closer than railroads could ever do, because it would take them through the gradually changing country, meeting the people of all sections along the way. It could be easily done, if each county along the route would agree to support the portion of the road traversing its territory, and in that way the expense would be comparatively small, being divided among the hundreds of counties. I believe that such a road will exist and that the sooner we get at it the better.

"We will leave Sunday morning after breakfast and we expect to reach Independence, on the aqueduct, by night. We will go through the desert from Independence to Goldfield, to Ely, to Colere, to Ogden, and Salt Lake City.

"From Salt Lake we will go to Laramie, thence to Denver, Colorado Springs, Lincoln, Omaha, Des Moines, Davenport and Chicago. From Chicago we go across country to Detroit, Buffalo, Albany, Boston, Portland and then to Augusta and on to Moosehead Lake, where our journey ends."

Teething babies always have a hard time of it when this process occurs in hot weather. They not only have to contend with painful gums but the stomach is disordered, bowels loose and the body uncomfortable. The best help you can give the little sufferer is McGEES BABY ELIXIR. It corrects sour stomach, cools and quiets the bowels and helps digestion. Price 25c, and 50c per bottle. Sold by Elvey & Hulett, quality druggists.

ITS REALLY DRY.

If anyone has a lingering doubt as to whether or not the town has gone dry, that doubt would have been dispelled had that one seen the load of "wet" stock that was shipped out of town yesterday from the Tempe house.

A bilious half-sick feeling, loss of energy, and constipated bowels can be relieved with surprising promptness by using HERBINE. The first dose brings improvement, a few doses put the system in fine, vigorous condition. Price 50c. Sold by Elvey & Hulett, quality druggists.

PLENTY OF WIND.

There have been more than the usual amount of wind and sand storms the last few days and some damage has resulted, to say nothing of the unpleasantness. Saturday evening a specially strong gust of wind took off a part of the roof of the Goodwin stable in Goldmann's addition and about the same time a big tree near the Johnston home was almost demolished. The same evening a big sign board near the depot, bearing the ads of a dozen or so merchants of the town, went down, every post being broken off near the ground. The new sign just put by the Merchants' association and which stood within a few feet of the one that was blown down weathered the storm in fine shape. The blow was a splendid test of its substantiality and it stood the test perfectly.

BEET HARVEST ON.

The beet harvest is now on and several car loads a day are being loaded at the Kyrene switch. The dump has been overhauled and it now in good running order. This year's crop of beets in that section seem to be unusually good.

LIMBERING UP.

W. D. Tremblay, over from Phoenix in his big racing car. He says he's just limbering up a little preparatory to making a long mountain trip through Arizona and New Mexico in a short time.

ENROUTE TO GLOBE.

Mrs. Len Scott, formerly of Morenci, is stopping at the Casa Luna and is enroute to Globe for a visit with a brother. Her husband, for some years an officer at Morenci, and known to a number of Tempe people, was killed a few months ago in that

camp. He was shot in the head and while death was almost instantaneous, Mr. Scott drew his revolver as he fell and sent a fatal shot into the man that killed him. Both men died within a few moments.

A regular morning operation of the bowels puts you in fine shape for the day's work. If you miss it you feel uncomfortable and cannot put vim into your movements. For all bowel irregularities HERBINE is the remedy. It purifies, strengthens and regulates. Price 50c. Sold by Elvey & Hulett, quality druggists.

RETURNS HOME.

Geo. H. Stoll, who has been here for the past few days, looking after his extensive property interests south of Mesa, returned to his home in Los Angeles last evening.

BACK AGAIN.

Postmaster J. O. Mullin, who has been spending the past week with his sister in Douglas, was expected home last evening.

SHOW TOMORROW NIGHT.

There will be the usual moving picture show at the air dome tomorrow evening. A new drop curtain is now being painted for the stage.

PRAYER CIRCLE.

The Ladies Prayer circle of the Baptist church will meet at the home of Mrs. H. M. Foll Thursday afternoon at 3 o'clock. Scripture lesson, 11th chapter of Hebrews. All are welcome.

GOOD NEWS FOR WINNERS OF W. C. T. U. MEDALS.

Mrs. Shirley Christy, founder and director of the Arizona School of Music, makes the following offer to winners of W. C. T. U. medals in Arizona. To those winning a grand gold medal she will allow 15 per cent off an entire year's tuition in the Arizona School of Music. To those winning a diamond medal she will allow 20 per cent off an entire year's tuition in the Arizona School of Music. This offer is made for recitation and piano, and not for song, as those competing in song are usually younger pupils. This offer is one that the superintendent of the medal department, Mrs. B. H. Scudder of the Tempe W. C. T. U., is exceedingly glad of, and thankful to have made. She says: "It means something for them to give us such a chance toward advancement along these lines. I sincerely hope and believe that it will result in good for both the school and the contestants. It is a privilege to have such an institution of learning in our midst where our girls and boys can take thorough courses and graduate without being so far from home. We hope that students will avail themselves of their opportunities and instead of spending the summer in idleness, follow some line of instruction that is not too heavy but that will be of much service to them in after life." Those desirous of taking part in the next contests may select their pieces (temperance) and commit them to memory so that as soon as a contest can be arranged it will not take long to get ready.

The superintendent of the department expects to be away a short time, so those desiring the use of our recitation books may borrow them at the home of Mrs. Scudder, leaving their names and the name of their selection with her daughter.

MESA

PINEAIR SUBSCRIPTIONS
ARE TO BE COLLECTED

Board of Directors Authorized to Bring
Suits Against Delinquents.

The Pineair Resort company, being a corporation, can sue and be sued, and a subscriber for stock can be compelled to make good his obligation. Such, at least, is the opinion of the stockholders, and at a late session of the company held at the Mesa opera house Saturday afternoon a resolution was adopted without a dissenting vote instructing the board of directors to notify delinquents to pay up at once or suits would be brought against them. The instructions went still further, to the effect that if any subscriber re-

fused to pay when asked for the money, or to arrange for payment by note, to at once sue for recovery. Some twelve thousand dollars have been expended upon the road and trail, and an additional \$5,000 will complete the work. Over \$5,000 of the money subscribed remains unpaid, and with this collected and the promises of responsible parties to take sufficient stock to cover the remaining expenses, the road can be at once completed.

The motion to bring suit against all who refused to pay was made by Dr. Wilbur and he was supported by the large number of stockholders present. It was the understanding that these subscriptions could be paid in cash or in bankable notes. It is the intention of the board of directors to at once take steps to get in the money, and it is hoped that a contract can soon be let for the completion of the road. Parties who have recently been to Pineair report the completed portion of the road in good condition. Mr. Clemens recently sent a load or two of supplies to his cattle range, via Pineair, and had no trouble in going over the road. In one or two places the winter rains had washed small ruts in the road, but these were easily repaired by throwing a few shovels full of dirt in the low places. The 3-foot trail over the uncompleted section is also in good condition, and parties desiring to reach Pineair can easily make it by arranging for packing supplies over the trail about five miles.

WILL MOVE TO BUCKEYE.
M. W. Stow, who has been at Buckeye for some time past, was in Mesa yesterday arranging to move his family to Buckeye for the summer. Mr. Stow has charge of a barber shop in Buckeye and is doing a good business, and now that he has his homestead proved up and everything done that can be done until water is available, will engage in business for a few months.

There is one medicine that every family should be provided with and especially during the summer months: viz., Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

A GOOD SHOWING.
Bank statements are of interest to the public as they are indicative of the financial standing of the community. The statement of the Mesa City bank, just issued, makes a good showing. From it the information is obtained that the bank has on deposit, subject to check, \$199,978.71, and time deposits of over \$62,000. The total resources in cash on hand, loans and discounts, bonds, real estate, and due from approved reserve agents, amount to \$354,832.26. When it is considered that this is the season of the year when more than the usual amount of money is checked out for the payment of harvesting and the cultivation of melons, oranges and grapes, no complaint can be made that the Mesa people are "broke." The Salt river Valley bank reports a similar prosperous business.

VACATION NEEDS.
When one starts for a trip to the mountains or to the coast for a summer vacation, or even for a short stay of a

week or two, there are certain articles that one should take along and others that it is best to leave at home. One will have no use for a monkey, a parrot or a new spring hat, or even a poodle dog, but every lady and gentleman should take along a Kodak, with films, combs, brushes, a fountain pen and a nice box of stationery. For ladies a handbag is essential and a toilet carrying bag, with talcum powder, perfume and other essentials for the care of the person and preservation of the complexion. A Thermos bottle is essential if there is a baby along, and is very convenient for carrying pure, cool drinking water. If a mountain trip is taken, a bottle of ammonia for insect bites and one of turpentine for bruises, surgeons' plaster and a small case of common remedies for colds, fever, etc., should be added to the list. Every necessary article for any kind of a summer trip can be had at Everybody's drug store, and the proprietors and clerks will pack them in the most convenient manner for carrying. Nearly every one in Mesa and vicinity has in mind a pleasure excursion of some kind for the coming three months, and the above suggestions may be of benefit to them.

BACK FROM CALIFORNIA.
W. H. Otterson, the freighter, is just back from an extended trip through California. He was much impressed with conditions in the Sacramento valley and may conclude to remove there. Not that Mr. Otterson is displeased
